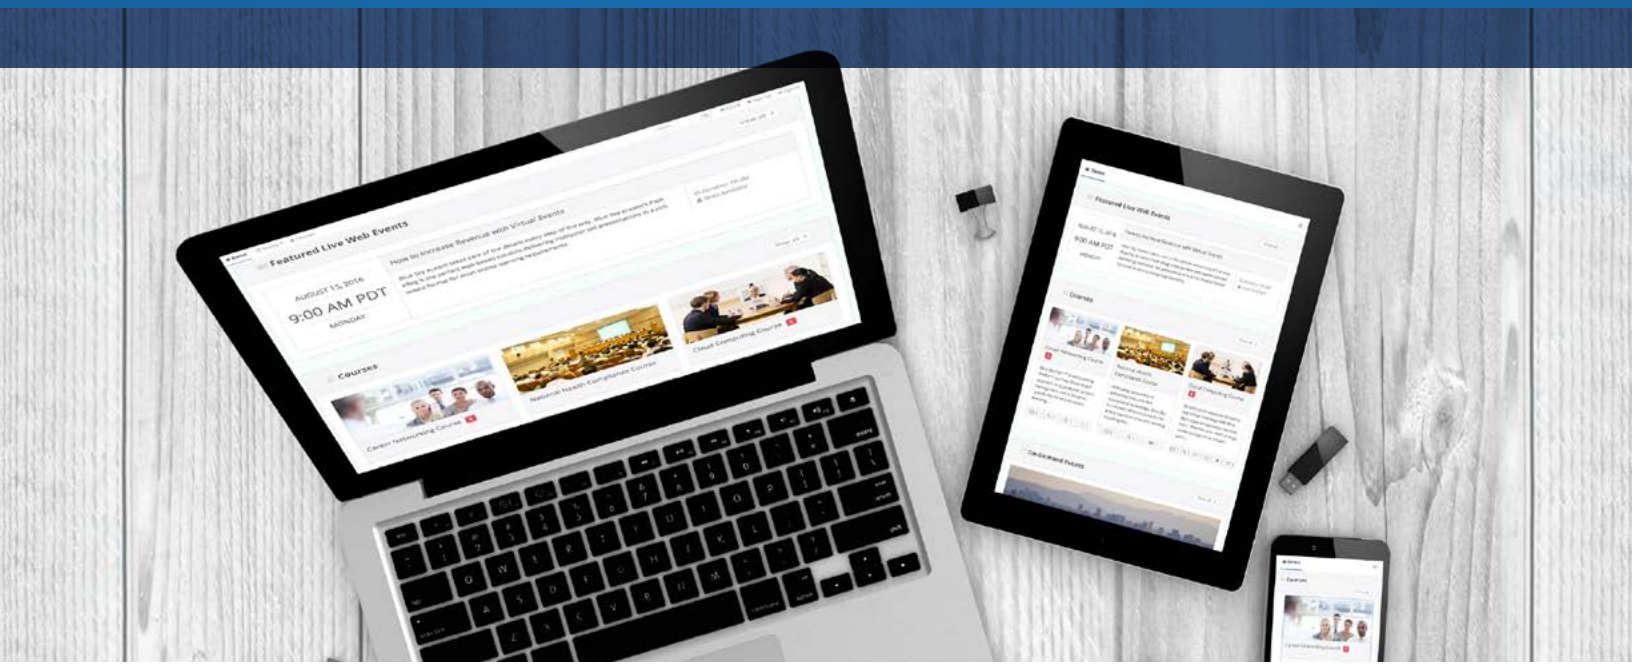
Path

Our Path suite of products delivers online courses and content anytime, anywhere.



Path Maximize Your Message with Path LMS™, eReg™ & eLibrary™

Our award-winning, powerful cloud-based solution to educational content management, designed specifically for lecture-based learning and unlocking additional opportunities from spoken word content.

Unlimited Storage

Never worry about data overages. Cloud-based technology lets you store an unlimited amount of rich media for no additional fees.

Mobile Optimized

Content is optimized to display on any device, enabling administrators and audiences to access Path LMS™ at any time from any Web-enabled device.

eCommerce

Sell your content using the secure built-in shopping cart that easily integrates with other third-party payment gateways. Control your offerings with coupon codes and group pricing options.

Assessments + Certification

Assess your audience's aptitude by designing your own tests to evaluate learners. Issue custom branded certificates as learners complete courses.

Live Event Registration

Simple registration for upcoming webinars, hybrid events and live webcasts. Add descriptions, speaker bios, photos and resources.

SCORM

From a high-level dashboard to robust detailed reports – access the tools needed to quickly gauge content and user activity.

Instructor-led Assignments

Add assignments to any course by leveraging our instructor-led assignment and feedback tool. Create assignments, receive responses and provide feedback.

Detailed Reporting

Accurately evaluate audience engagement and audit the effectiveness of your content with detailed reporting features that inform your decision making.

Virtual Events

Managed Webinars

Put your webinar setup and management in our capable hands and we'll deliver peace of mind, a technically flawless presentation, attendee support and a live moderator.

Our Complete Virtual Event Solution Features

Full-Service Facilitation + Support

- Live introduction & moderation
- Live technical support for participants
- Reliable back-ups and redundancy
- Problem-free high volume log-ins
- Toll-free participant support contact line
- Sophisticated polling and live event tracking

Dedicated Event Manager

- Event planning & setup support
- Registration site creation
- Speaker training
- Event facilitation & quality assurance review
- Easy universal audience access with no plug-ins or applets required

Post Event Services

- Event recording archive published to your site or your Path LMS portal
- Post-event analysis and participation reporting
- Detailed event engagement metrics
- Ecommerce integration to monetize your event content

Post Production

- Convert virtual event content into on-demand learning modules
- Create visually dynamic education experiences
- Customize with your event-specific branding
- Synchronize slides and other supporting media

Blue Sky also offers scaled-down webinar services for smaller events. Handle preparation and presenter training internally and we'll support you with live event facilitation and post-event services.

Webcasts & Hybrid Meetings

Let our live streaming technology experts handle your technical needs so you're free to focus on your message. Use our full-service production crew or your own high-quality webcam to smoothly and seamlessly broadcast your live event, annual conference or meeting and enable real-time remote audience interaction from anywhere around the world.
