## If I sign up, which campaigns will I get in my Infusionsoft app?

As part of the Campaigns of the Titans bonuses, when you sign up for a 30-day free trial of PlusThis, we'll build two of our most popular campaigns from the PDF into your Infusionsoft app.

The first campaign is Frank Kern's 4-Day Evergreen Cash Machine. This is the *exact campaign* that he uses in his business. We will even include a walkthrough video to show you exactly what the campaign will do once you publish it.

The second campaign is an NPS Referral Campaign so you can put your referrals and testimonials on autopilot. This campaign allows you to collect valuable feedback on what's keeping customers from referring more business to you. The best part is this is all automated.

Hint: both of these campaigns use PlusThis tools. Having access to a trial of PlusThis as you go through the campaigns will be essential for them to function the way they were designed.

## What will the implementation call do for me?

Starting a free trial of PlusThis doesn't mean you're on your own. We'll schedule an implementation call so you can hit the ground running with a live campaign ASAP.

During the call we'll cover how our features work and common use cases for similar businesses. The Campaigns of the Titans PDF only highlights a few ways you can use PlusThis to grow sales and save time. On the call we'll dive into your business and uncover how you can use PlusThis to achieve immediate results.

After your implementation call is over, we offer ongoing support including tickets, email, phone and chat in case you need us.
