Gain the Tools & Training to Effectively Manage an Outbreak

Dear Colleagues,

On behalf of the Advisory Panel and Education Committee Panel, welcome to the first SHEA/CDC Outbreak Response Training Program (ORTP) Regional Training Workshop in Philadelphia, Pennsylvania. We are pleased to officially launch the next two days of lectures, case-studies, and working sessions with information on how to effectively lead your facility's response during public health emergencies and facility outbreaks. It is very exciting to see all of our volunteers' hard work come to life for this two-day workshop.

The SHEA/CDC ORTP is designed to provide U.S. hospital epidemiologists with the tools and training necessary to effectively manage an outbreak. The scope is wide, spanning large-scale public health emergencies to facility-level unit outbreaks. For us, this work has been a labor of love. We can't count how many times we thought, "*I wish I had the ORTP when I first started my job as Hospital Epidemiologist…*" and we hope you leave this workshop with the confidence to successfully lead an outbreak response.

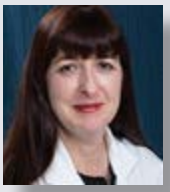
The goal of the entire ORTP is to ensure that hospital epidemiologists and infection prevention teams are knowledgeable leaders during, before and after outbreaks. Outbreak response leadership extends way beyond the technical training you receive in medical school. It requires knowledge in emergency preparedness and the Incident Management System. It requires competency in strategic communications with healthcare staff, hospital visitors, and the media.

We are particularly thankful for the Centers for Disease Control and Prevention for recognizing this need in our field, and enabling the SHEA volunteers to put together this program. It has captured the very essence of what being a healthcare epidemiologist is about and speaks to the core of SHEA and SHEA membership. Everyone who has worked on this project has approached it with great enthusiasm, and we are privileged to have worked with such a dedicated team.

Thank you again for joining us and enjoy the workshop!

Sincerely,

Judy Guzman-Cottrill, DO
Chair, ORTP
Advisory Panel



Jennifer Hanrahan, DO, MA
Co-Chair, ORTP
Education Committee Panel

Christopher Pfeiffer, MD
Co-Chair, ORTP
Education Committee Panel

Target Audience

This activity is designed to train US hospital epidemiologists who oversee infection control programs to have the skills, abilities, and tools available to implement infection control practices and respond to infectious threats. Training and tools will cover:

- How to manage infectious disease outbreaks
- Actions to take during public health emergencies
- Actions to take in-between emergencies
- Principles and practices of emergency response including emergency preparedness protocols and processes (e.g., incident management).

Learning Objectives

At the conclusion of this activity, participants should be able to:

- Discuss lessons learned from prior outbreaks in order to prepare for emerging infections
- Describe currently emerging infectious diseases that are most likely to cause healthcare-facility outbreaks, and implement screening procedures that would identify potential patients
- Critique existing infection control policies and procedures and recognize gaps
- Prepare a communication plan in order to communicate effectively with the public and media during the next outbreak/crisis
- Define the role of the hospital epidemiologist in public health emergencies
- Apply and evaluate current screening methods used to identify potential public health emergencies
- Determine strategies to ramp up, step down, and maintain emergency preparation and containment efforts for high-consequence infection pathogens

Accreditation Statement

The Society for Healthcare Epidemiology of America is accredited by the Accreditation Council for Continuing Medical Education to provide continuing medical education for physicians.

The Society for Healthcare Epidemiology of America designates this live activity for a maximum of 13.75 *AMA PRA Category 1 Credit(s)*™. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

Successful Completion Statement

Participants are expected to claim only those hours spent in the educational activity approved for continuing education credit. Certificates of Attendance are provided to registered attendees based upon completion of the online evaluation. On **June 20**, attendees will receive a link to complete the online evaluation. Once completed, they will receive a confirmation email with a link and instructions for downloading their certificate(s).

Content Validation Statement

The Society for Healthcare Epidemiology of America accepts the following content validation statements and expects all persons involved in its professional education activities to abide by these statements with regard to any recommendations for clinical care.

- All recommendations involving clinical medicine are based on evidence accepted within the profession of medicine as adequate justification for their indications and contradictions in the care of patients; and/or
- All scientific research referred to or reported in support or justification of a patient care recommendation conforms to generally accepted standards of experimental design, data collection, and analysis.

AGENDA

Tuesday, June 20

7:00 a.m. - 6:00 p.m.	**Registration**
7:30 - 8:00 a.m.	**Welcome Address and Day 1 Pre-Survey** *(All attendees must complete)*
	Moderators: Jennifer Hanrahan, DO, MA, and Kavita Trivedi, MD
8:00 – 8:40 a.m.	**A Survivor's Story: Dual Citizenship at the Ebola Bedside**
	Speaker: Ian Crozier, MD **Learning Objective:** • *Outline successes and failures of past outbreaks and apply lessons learned to outbreak management at your hospital*
8:40 – 9:10 a.m.	**A Hospital Epidemiologist's Guide to the Galaxy**
	Speaker: Louise-Marie Dembry, MD, MS, MBA **Learning Objective:** • *Summarize background information regarding emerging infections*
9:10 – 9:55 a.m.	**Newbie's Guide to Policy Development**
	Speaker: Jennifer Hanrahan, DO, MA and Geeta Sood, MD **Learning Objectives:** • *Examine the quality, accessibility, and feasibility of existing infection control policies in place at your facility* • *Determine the highest-priority policies and procedures to implement quickly in the face of a facility outbreak or emerging threat* • *Utilize tools provided to implement best practices in early outbreak situations or before outbreak situations occur*
9:55 – 10:40 a.m.	**Case Study 1: MERS-CoV**
	Speaker: Trish Perl, MD, MSc **Learning Objectives:** • *Recognize when to be concerned about potential emerging infections* • *Understand universal actions that can and should be taken to care for patients, staff, and public*
10:40 – 10:50 a.m.	BREAK

Tuesday, June 20 *(continued)*

10:50 – 11:50 a.m. **Hope Is Not a Plan**

Speaker: Angela Hewlett, MD

Learning Objectives:

- *Describe the key steps involved in preparing your facility for the next high-consequence pathogen infection*
- *Describe screening and travel screening tools for each location/risk assessment; MDROs*
- *Recognize important facilitators and barriers for preparing for emerging infections*

11:50 a.m. – 12:20 p.m. **HICS and Hiccups**

Speaker: Kristina L. Spurgeon, MPH

Learning Objectives:

- *Describe priority roles during a response*
- *Demonstrate the incident management process*
- *Describe how, where, and when epidemiologists fit into the HICS*

12:20 - 1:30 p.m. LUNCH BREAK (ON YOUR OWN)

1:30 – 4:55 p.m. **Location, Location, Location**

Speakers:

Suminski

Isakov

Evans

Lafaro

Sheffield

Sandora

Rengarajan

Goldstein

1:30 – 2:00 p.m.	*Ambulatory Setting* – **Danielle Suminski, BSN, RN**
2:00 – 2:20 p.m.	*EMS* – **Alexander Isakov, MD, MPH**
2:20 - 2:40 p.m.	*Emergency Department* – **Alexander Isakov, MD, MPH**
2:40 – 3:00 p.m.	*Inpatient Care: ICU/Med-Surg* – **Laura Evans, MD, MSc**
3:00 – 3:15 p.m.	*Transporting Infectious Patients Within Your Facility* – **Patricia Lafaro, RN, BS, CIC**
3:15 – 3:35 p.m.	*Labor and Delivery* – **Jeanne Sheffield, MD**
3:35 – 3:55 p.m.	*Pediatrics* – **Thomas J. Sandora, MD MPH**
3:55 – 4:05 p.m.	*Environmental Services* – **Kalpana Rengarajan, PhD, MPH, JM, RBP**
4:05 – 4:25 p.m.	*Labs/Pathology/Mortuary* – **Kalpana Rengarajan, PhD, MPH, JM, RBP**
4:25 – 4:55 p.m.	*Differences & Similarities: STAC vs LTAC vs SNF* – **Ellie J.C. Goldstein, MD**

Learning Objectives:

- *Recognize the vital role that each team member plays in response to a public health emergency*
- *Identify unique challenges to infection control in each setting*
- *Formulate effective strategies to protect healthcare providers and staff*

4:55 – 5:40 p.m.	**Case Study 2: Cherchez Le LTAC**
	Speaker: Ellie J.C. Goldstein, MD **Learning Objectives:** • *Recognize when to be concerned about potential emerging infections* • *Outline universal actions that can and should be taken to care for patients, staff, and public* • *Describe diagnostics for different pathogens*
5:45 – 6:00 p.m.	**Day 1 Post-Survey** *(All attendees must complete)*

Wednesday, June 21

7:30 a.m. – 3:30 p.m.	**Registration Open**
7:45 – 8:00 a.m.	**Welcome and Day 2 Pre-Survey** *(All attendees must complete)*
8:00 – 8:45 a.m.	**Case Study 3: Viral Hemorrhagic Fevers**
	Speaker: William A. Fischer II, MD **Learning Objectives:** • *Recognize when to be concerned about potential emerging infections* • *Outline universal actions that can and should be taken to care for patients, staff, and public* • *Describe diagnostics for Ebola virus disease*
8:45 – 9:15 a.m.	**PCR Is Not Always the Answer**
	Speaker: Nicholas Moore, PhD(c), MS, MLS(ASCP)CM **Learning Objectives:** • *Describe various diagnostic methods used for identifying infectious pathogens* • *Determine when certain assays are appropriate to aid in the diagnosis of infectious pathogens* • *Explain the role of the hospital clinical microbiology lab in the LRN*
9:15 – 10:00 a.m.	**Preparing for the Zombie Apocalypse**
	Speaker: George Foltin, MD **Learning Objective:** • *Implement effective surge protocols training when an outbreak approaches*
10:00 – 10:15 a.m.	BREAK

Wednesday, June 21 *(continued)*

10:15 – 11:15 a.m.	**#LightsCameraAction**
	Speaker: Eileen Korey **Learning Objectives:** • *Describe the role of the media during emerging threats and local outbreaks* • *Describe how best to use media outlets to deliver your message to the public, including television, Internet, and social media platforms* • *Evaluate the benefits and drawbacks of different social media formats as mass communication tools during an outbreak*
11:15 a.m. – 12:00 p.m.	**Who's the Boss?**
	Speaker: Robert Weinstein, MD **Learning Objectives:** • *Distinguish the unique skills and expertise of the hospital epidemiologist* • *Illustrate leadership challenges during a public health emergency and propose solutions to overcome these challenges*
12:00 – 1:00 p.m.	LUNCH BREAK (ON YOUR OWN)
1:00 – 1:30 p.m.	**Get Your Sim On!**
	Speaker: Marjorie Lee White, MD, MPPM, MEd **Learning Objectives:** • *Review basic principles of healthcare simulation* • *Know key components of effective individual, team, and system-based simulations* • *Develop 3 simulation-based tactical plans to use in outbreak planning* • *Implement effective simulations to help train personnel in the event of an outbreak*
1:30 – 2:00 p.m.	**Keeping Up With the Krisis**
	Speaker: Bruce S. Ribner, MD, MPH **Learning Objective:** • *Describe when preparation and containment efforts should be ramped up or stepped down*
2:00 – 3:00 p.m.	**Q&A**
3:00 – 3:30 p.m.	**Day 2 Post-Survey** *(All attendees must complete)*

General Information

Hotel Information

The Sonesta Philadelphia Rittenhouse Square is located at 1800 Market Street Philadelphia, Pennsylvania 19103. All educational sessions will be in the Wyeth Ballroom, located on the 2nd floor.

Registration is located in the foyer of the Wyeth Ballroom, 2nd floor. Registration will be open on Tuesday, June 20 from 7:00 a.m. – 6:00 p.m. and Wednesday, June 21 from 7:30 a.m. – 3:30 p.m.

Internet Connection

Wireless Internet will be provided complimentary for all SHEA attendees throughout the meeting space as well as in the hotel lobby and guest sleeping rooms. To access Wi-Fi in the meeting space use the network: Sonesta Conference and password: sonesta5.

Meals

Attendees are encouraged to take advantage of the local eateries within walking distance of the hotel. No meals or refreshments will be provided.

Parking

There is a discounted SHEA parking valet rate of $34.50 per day for overnight guests. When you arrive, notify the valet that you are with the SHEA workshop for this special rate.

Business Center

There is a 24-hour business center with computer, printer, free Wi-Fi, copy and fax machines located on 2nd and 8th floors of the hotel.

Pre- and Post-Surveys

SHEA and the CDC will be assessing the effectiveness of this educational activity via pre- and post-activity assessment surveys. We would appreciate your cooperation by answering these surveys. NOTE: All individual responses will remain confidential, while overall results may be shared and reported.

Photos & Recordings

By registering for the SHEA/CDC Outbreak Response Training Program (ORTP), you acknowledge SHEA could photograph, audio record, and/or visually record sessions and other workshop activities. SHEA may make use of such photographs and recording for purposes including creating, distributing, and transmitting copies of them, and/or promotional or advertising uses, without restriction of media.

Explore Philadelphia,

The City of Brotherly Love

The Sonesta Hotel Philadelphia is strategically located in Center City, downtown Philadelphia, so you are just a short walk from discovering amazing attractions, world-class museums, historic landmarks, fine dining, shopping and everything the City of Brotherly Love has to offer. There is a wide array of diverse restaurants for dining any time of day. For a list of restaurants in the area, please visit **www.visitphilly.com**. The hotel concierge desk in the lobby can also be of assistance with restaurants, transportation, shopping, and other activities.

January 2018

Outbreak Response Training Program Regional Workshop

The next ORTP Regional Workshop will be held January 23-24, 2018 at The Garland Hotel in Los Angeles, CA. Registration will open in July.

Schedule at a Glance

Tuesday, June 20

7:00 a.m. – 6:00 p.m.	Registration
7:30 – 8:00 a.m.	Welcome Address and Day 1 Pre-Survey *(All attendees must complete)*
